PILOT-U44-Plus Universal Chip Programmer (IC/Device/EEPROM/Chip Programmer)

Supported Devices List

PLCC devices use universal adapters (such as PX-20, PX-28, PX-32, UA-44, UPA-84), unless noted otherwise. In most cases, only the generic IC devices part numbers are listed. For example “87C51 40/44” would include the 40-pin DIP package, as well as the 44-pin PLCC, 44-pin QFP and 44-pin TQFP packages. For availability of different package adapters, please see <http://advin.com/programmer-adapters.htm>

Device # pins Adapter needed
